

LUCAS-JOHN GREEN (LJ)

ljdgreen@live.co.uk | [PORTFOLIO](#) | 07479534115

Experience

Frontend Developer Internship |
Frontend Simplified

March 2023 – June 2023

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Freelance Frontend Developer |
Self Employed

February 2023 - Current

- Delivered 5 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practice.
- Improved website performance by compressing caching and lazy loading images and components.
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world.

Major Projects

Sweat Exercise | [Website](#) | [GitHub](#)

- Independently developed and implemented my first project, using Axios to integrate APIs, showcasing problem-solving skills and effective utilization of JavaScript for dynamic data representation.

Ultraverse NFT Market | [Website](#) | [GitHub](#)

- Collaborated with Git branches to ensure efficient code management and seamless teamwork while leveraging JavaScript effectively to enhance project functionality and deliver optimal user experiences.

Twitter Clone | [Website](#) | [GitHub](#)

- Completed a project that involved cloning a web application using Next.js, Redux, and Firebase. This experience significantly enhanced my discipline in learning new software technologies, improving my desire to expand my skills in frontend development.

Gerich Luxury Restaurant Website | [Website](#) | [GitHub](#)

- Demonstrated front-end skill growth through a luxury restaurant project, enhancing UI/UX design and implementing advanced features, resulting in an elevated digital experience for customers.

Book Library | [Website](#) | [GitHub](#)

- Enhanced JavaScript coding proficiency and utilized React libraries, including animations and carousels, in the development of a library book project, improving personal skills surrounding interactive and dynamic user interfaces.
