Experience

Frontend Developer Internship | [CERTIFICATE](#)

March 2023 – June 2023

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Freelance Frontend Developer |

February 2023 - Current

Self Employed

- Delivered 4 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practice.
- Improved website performance by compressing caching and lazy loading images and components.
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world.

Major Projects

TechPro Solutions | [Website](#) | [GitHub](#)

- Developed a digital solutions website using Figma, HTML, Tailwind CSS, JS, and React. Showcased skills, projects, and growth as front-end developer. Modern design, responsive layout, interactive features. Demonstrated proficiency in technologies.

Ultraverse NFT Market | [Website](#) | [GitHub](#)

- Collaborated with Git branches to ensure efficient code management and seamless teamwork while leveraging JavaScript effectively to enhance project functionality and deliver optimal user experiences.

Sweat Exercise | [Website](#) | [GitHub](#)

- Independently developed and implemented my first project, using Axios to integrate APIs, showcasing problem-solving skills and effective utilization of JavaScript for dynamic data representation.

Twitter Clone | [Website](#) | [GitHub](#)

- Completed a project that involved cloning a web application using Next.js, Redux, and Firebase. This experience significantly enhanced my discipline in learning new software technologies, improving my desire to expand my skills in frontend development.

Book Library | [Website](#) | [GitHub](#)

- Enhanced JavaScript coding proficiency and utilized React libraries, including animations and carousels, in the development of a library book project, improving personal skills surrounding interactive and dynamic user interfaces.
